

TOTAL HEALTHCARE BILLING

The Benefits of Outsourcing Your Medical Billing

Reduces Billing Errors

- ☑ Experienced Medical Billing experts that submit claims in a timely and accurate manner
- ☑ Our sole purpose is to provide exceptional medical billing services
- ☑ We reduce the number of denied and rejected claims due to error
- ☑ We provide feedback to assist in maximizing reimbursements on future claims

Saves Money

- ☑ Save thousands in annual salaries and benefits by outsourcing
- ☑ Medical Billing Companies charge a flat rate per claim fee or a percentage of the reimbursement on each claim (percentages are based on what is collected, not what is billed)
- ☑ Outsourcing is less costly than paying an in-house medical billing staff to provide the same service with less medical billing knowledge

Improves Cash Flow

- ☑ What happens when your in-house medical biller takes leave unexpectedly or vacation? Most likely your claims are not going to be submitted timely resulting in a negative impact on your revenue
- ☑ Billing interruptions ultimately affect the timeliness of your reimbursements and cash flow
- ☑ Using a Medical Billing Company allows a continuous, steady flow of claim submissions ensuring a consistent and reliable cash flow
- ☑ A reliable cash flow is important for your bottom line and the success of your medical practice

Let us be your Medical Billing Company today.
